Inga Councillors Meet.

Inga Councillors met in
Stony Plain August 6. While
the meeting was rather a
lengthy one, the proceedings
consisted mostly of the pre-
sentation and passing of the
foremen's time sheets for road
work performed in the various
divisions.

Mr Young, inspector under
the Mothers' Allowance Act,
presented his report on a case
in Mewassin district which
had been referred to him for
an inspection. The application
was reported on favorably.

Mr Thos. Graden, weed in-
spector, was present and made
an impromptu speech, in which
he related the trials and tribu-
lations of a weed detector.
His report embraced the work
done by him to date. The re-
port was adopted unanimously,
and the Inspector was given
a free hand in the matter of en-
forcing the provisions of the
Act in Inga municipality.

Reeve McKinlay, Councillors
Goetz, Howat and Hop-
kins were appointed a dele-
gation to visit Duffield on
municipal business.

Thru the unavoidable ab-
sence of the Reeve, Deputy
Reeve Hopkins was in the
chair.

The Councillors' next meet-
ing will be in Stony Plain on
Friday, Sept. 23.

LOCAL NEWS.

Mr and Mrs Aleo Duthie,
Mandare, were Sunday visit-
ors with Mr and Mrs A E
Michael.

Miss Ray Wolfe, Vanco-
ver, and Miss L Wolfe, Clem-
ent Falls, are visiting here
with their parents, Mr and
Mrs Adam Wolfe.

Mr Dan McKinlay, of Na-
mao, was a week-end visitor
in Stony.

Mr and Mrs R M Outway
left Monday for a visit with
friends at Winnipeg and Do-
minion City.

Mr and Mrs F W Landy
have gone on a motor trip to
Banff and other points of in-
terest.

Banker Olivier of St Paul
was a Stony visitor on Sun-
day.

O Mantle, of Lac Ste Anne,
was a Stony visitor on Tues-
day.

Electrician H Trapp an-
nounces that he has acquired
a 5-cylinder Puddle-jumper
with which he intends tour-
ing the country.

The manager of Walther
League ball team, which has
a splendid series of triumphs
to its credit on the baseball
diamond, is arranging a game
with the Selkirk team, of Ed-
monton.

Miss Lizzie Sinner left on
Sunday morning, on a visit to
friends in Vancouver.

Opportunities' Sons are

"Nothing Can Stop Us."

Canada has been honored in this year of its Diamond Jubilee by another visit from the Prince of Wales. On this occasion, however, he is accompanied by his brother, Prince George, and by the Right Honorable Stanley Baldwin, Prime Minister of Great Britain.

The significance of this visit will not be lost upon the people of Canada, nor, in fact, upon the British Empire as a whole. The ease with which the people of Canada and the British Isles can exchange visits nowadays is resulting in a more intimate knowledge of each other and in developing a community of interest quite lacking not so many years ago. Now it is almost as easy for the people of Canada and Britain to visit each other as it is for Canadians in the Maritime Provinces to visit their fellow citizens in British Columbia.

The fact is this being made known to the world that Canada occupies a strategic position in the British Commonwealth of Nations. Its geographical location in the Empire, constituting it the main highway between the Occident and the Orient, must inevitably result in this Dominion being the real centre of the Empire in the not very distant future. And the development of trans-oceanic travel by air will only serve to emphasize Canada's important place in the Empire.

Thus, for the first time in history, a Prime Minister of Great Britain is able during his tenure of office to leave Britain and make an official visit to one of the overseas Dominions. He could not possibly spare the time to visit any of the other Dominions. It is an epoch making event.

It is apparent that Mr. Baldwin, himself, is cognizant of what the future has in store. In an address before the Montreal Canadian Club shortly after his arrival in this Dominion, Mr. Baldwin spoke in such optimistic terms of Canada's future possibilities and greatness that, voiced by a native Canadian, would have left the latter open to possible ridicule and criticism as being bombastic.

Mr. Baldwin sees no limit to the greatness of Canada's future. "Nothing can stop you," he declared. Canada, he went on to say, must progress with the world's progress, with the result that some day "Canada may be the greatest nation in the world."

Sixty years of Confederation have proven to Canadians and to the world what can be accomplished, and have established the untold possibilities of the Dominion in all those qualities and resources which go to make a nation great. Another sixty years may easily see Canada with a larger population than the British Isles, with manufacturing being carried on with a magnitude as yet only dreamed of, and surpassing in output the great industries of the Old Land, while at the same time supplying in much greater degree than today the food requirements of the world.

Canada is only now getting into its stride. It is just on its feet and on the eve of a development and expansion in all the major activities of the world which will establish a new world record in national growth. Canadian foundations have been well and truly laid. They are strong enough upon which to erect a magnificent structure, and it only remains for the Canadian people to realize its possibilities and devote themselves with patriotic devotion and untiring energy to the inspiring task before them.

The days of pessimism are past. There never was any real cause for them, but this Jubilee year has thrown a new light on the future, finally convincing the people of the Dominion of this fact. There has been a great awakening of our people, and a new national spirit has been evoked, a new confidence born, and a pride and courage developed which in a comparatively few years will work a veritable revolution in the growth of this Dominion.

Canadians will do well to keep ever in mind the slogan of the National Diamond Jubilee Committee "Canada Our Country," and to accept as their watchword the words given to them by Premier Baldwin, "Nothing Can Stop Us." In making Canada great and prosperous they will be rendering the finest possible service to the Empire as a whole and confer benefits upon the world at large, because, above all things, the Canadians are a home loving, peace loving people. They have the true conception of the new Internationalism which believes in the advancement of all peoples as the true policy of a better world.

Saskatchewan Cow Makes Record
G. D. Day, Secretary Dominion Buckhorn Breeders' Association, Guelph, Ont., reports that Darlington Mable (204089) a cow owned by F. S. Cooper, Grayburg, Sask., has just completed a Sunday's yield of 5.91 lbs. of milk and 2.40 lbs. of butter-fat.

Battles of other people are always doubly clear to us.

Alberta Coal For B.C.
Mr. George R. Pratt, fuel engineer for the Alberta Government, reports that there are strong possibilities of establishing a satisfactory market for Alberta coal on the Pacific coast due, to some extent, to the creation of bunkering facilities at Vancouver.

If a man is too lazy to think for himself he should get married.

Children Cry for

MOTHER—Fletcher's Castoria is especially prepared to relieve infants in arms and children all ages of Constipation, Flatulence, Wind Colic, and Diarrhea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of food; giving healthy and natural sleep.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

Unique Device Patented

Rollers At Railroad Crossing Will Prevent Accidents

As a means for preventing automobile accidents at railroad crossings, an Ohio inventor has patented a roller device which has proved effective under tests, says Popular Mechanics Magazine. There are two sets of rollers, each eighteen feet long, installed at a highway near the rail approach. They revolve only one way and when the automobile strikes them, as a train is approaching, they turn, keeping the car from going forward. When the train passes, a switch locks the rollers so that the auto can proceed.

THE BEST MEDICINE

SHE EVER USED

Dr. Williams' Pink Pills Highly Praised By a Quebec Lady

Mrs. David Logan, Thorford Mines, West, Que., gives unsolicited praise to Dr. Williams' Pink Pills for the good Dr. Logan says:—"I have been a user of Dr. Williams' Pink Pills for many years, as occasion required, and have always found them a most reliable medicine. My husband, who was recovering from an attack of typhoid fever, and was in a very weak condition, took the pills, and through their gentle action and strength, my daughter was in a run-down condition, and was forced to discontinue work. Again Dr. Williams' Pink Pills were resorted to and she was soon restored to excellent health. Then my effect but an operation performed for adenoids, which left him in a weakened condition. Once more Dr. Williams' Pink Pills were tried, and he was soon in excellent health. So I can truly say that more than satisfaction has been obtained by the use of this medicine. The pills have done more good in my home than hundreds of dollars worth of more expensive medicines."

Dr. Williams' Pink Pills assist digestion, correct the circulation, purify the blood, and strengthen the palpitating of the heart, shaky nerves and the pallor of the face and lips, thus the results of this, improve blood.

You can get these Pills from any medicine dealer or by mail 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

An Overcrowded Country

Population Of England Is 700 To The Square Mile

It must be confessed that we dwell in an over-crowded country. The population of England, apart from Wales and Scotland, is more than 700 to the square mile. We are four times as crowded as India and nearly three times as congested as China; we are twice as crowded as Germany or Italy, and nearly four times as crowded as the United States. In 1910, we have built some 800,000 houses at a capital cost to the public purse, estimated to be about £147,000,000—and still State subsidies are being given towards un-economic housing schemes, which fill our suburbs and encourage builders to erect ugly villas along our country roads.—B. S. Towaroe Edinburgh Review.

Movies Filmed In Rockies

Spectacular Stunts Of Aviation Over Lake Louise

The most spectacular event ever attempted in the Canadian Rockies and one which attracted every guest to the front lawn of the Chateau Lake Louise, was successfully carried out by two Canadians, ex-Royal Air Force officers, W. H. Williams and E. C. Bigelow, who for half an hour performed a number of flying stunts over Lake Louise and the Chateau. Zooming down on the lake and dropping from the machine, the parachutes were the features of the exhibition, which was staged by the Fox Film Company in connection with their film, "Pyrama." This picture, which stars Olive Borden, and is directed by Jack Hyatt, is now being made in Alberta.

Encourage Vegetarian Weddings
"Vegetarian weddings are being encouraged by the French Society of Vegetarians. They have organized a series of functions, where young lovers of vegetables can start their courtships. Opposites may be attracted to each other say some of the leaders of this movement but the dinner table is likely to become a battle ground if there be too great a difference in tastes."

For corne and bunions use Mirnard's Liniment.

New High Speed Ships

Will Cross Atlantic From Germany In Four and a Half Days

Vincent Astor, recently returned from Europe, brings news of interesting, interesting transatlantic travel developed in Germany.

Within a short time German ships will cross in four and a half days. The cost of such high speed will be great even with modern Diesel engines, consumption going up many times faster than a ship's speed.

But two of the high-speed ships will make as many trips across the ocean as three of their fastest competitors could make. That will make up for speed cost, saving 50 per cent. in ships and crews! And the short trip will draw the best paying customers, including the idle rich, to whom it does not make any difference how slowly they go. They think they are in a hurry and very busy, and willingly pay for speed.

Plan Scottish Dictionary

Ambitious Project To Be Carried Out In New York

Under direction of the Scottish Dialects Committee a new Scottish dictionary is to be issued. It will consist of from ten to fifteen parts, each being issued as it is completed. While the project might be self-supporting should there be a sufficient number of subscribers, the committee is being aided financially by the Carnegie Trust, and is sending appeals to Scots at home and abroad, and also to Burns Clubs, St. Andrew Societies and Scottish County Associations. Representatives will be sent to Ireland, New Zealand and other countries to gather material. In seeking information, a questionnaire brought 15,000 replies from the district of Edinburgh alone.—New York Morning Telegraph.

Alberta Cattle Breeder Sells Herd

Alban R. Gilles, breeder of Ayrshires and Yorkshires, Clover Bar, Alberta, has sold his entire herd of 64 head of pure bred Ayrshires to parties in Seattle, Wash., U. S. It is unusual for whole herds to be sold at one stroke. The sale apparently indicates that the demand for Western Canada live stock is steadily increasing.

WILSON'S FLY PADS

Will kill many times more flies for the money than any other fly killer. Each pad will kill flies all day, every day, for three weeks. At all Grocers, Druggists and General Stores—10c and 25c per package.

SALESMAN WANTED to sell highly tested stock of "Canada's Greatest Fly Pad" (Famously so called). New and special lines including varieties recommended by the Western Experimental Stations. Highest commissions, exclusive territory, handsome free outfit. Start now. Stone & Wellington, Toronto, Ontario.

Leaves For Hudson's Bay

British Engineering Expert Is Accompanied By Official Party

Frederick Palmer, British, engineering expert, who has been retained by the Dominion government to report upon the Hudson Bay harbor development at Port Nelson and Port Churchill, arrived in Ottawa, July 27 from England, accompanied by B. J. Buckton, prominent engineer of London, England, and left at once for Hudson Bay with the official party, which included Hon. Charles A. Dunning, minister of the department of railways and canals, and Major Graham Bell, the deputy minister.

The Terror of Asthma comes like a thief in the night with its dreadful throttling, robbing its victim of breath. It seems beyond the power of human aid to relieve until one trial is made of that remarkable preparation, Dr. J. D. Kellogg's Asthma Remedy. Then relief comes with a rush. Like becomes worth trying, and if the remedy be used persistently, the disease is put permanently to rest. Take no substitute.

Coal Production Increasing

Latest official figures show that coal production in both Alberta and Saskatchewan is increasing.

Western Canada To Be Important Section Of One Of World's Greatest Countries

Western Canada, "An Acropolis of the West," is destined to be in the years to come one of the greatest parts or one of the greatest countries of the world, according to Roger W. Babson, prominent statesman and authority on business affairs, who addressed the Board of Trade at Calgary recently.

Mr. Babson, dealt with the location, the climate and the resources of the country and to the characteristics of the people who comprise its population. He spoke of the emigration of the Canadian youth to the United States, and deprecated the fact that more about Canada is not taught in the universities in order that students might be shown that to go to the United States is but to live on milk and honey for a few years only to be thrown on the scrap-heap later, when, had they stayed in Canada, they might start from the bottom of the ladder, but surely build business and financial independence for themselves.

Dealing in detail with this exodus, which has been taking place from Canada to the United States, the speaker declared that, during his travels in Canada he has made a point of inquiring from the young people whom he has met, to find out what their primary ambitions are. He has found here many young people from the British Isles and Australia who are staying in Canada only until their quota in the United States may be thrown open.

"In your universities and colleges, you are teaching your young people about history and the sciences and law, but are you teaching them enough about Canada?" he asked. "Are you teaching them anything about Canada's abundance of resources? Are you telling them the truth about the economics of Canada?"

Much can be done to really assist these young people by educating them to the true economic condition of the United States. At present that country, he continued, is bearing forward in a great wave of prosperity, but the wave cannot always last; the stock markets cannot always continue to go up. There must be a time when the tide will swing the other way and when the depression comes, the Canadians, the English, the Scotch and the Australians will be the first to be cast out of employment. Much can be done to prevent this disaster for them by a proper method of education, he continued.

Canada, he declared, has the proper climate because a temperate climate is necessary for the building of sturdy, virile manhood. Such a climate has always been responsible for the raising of the races of men, who have contributed the most to the world's progress, and the speaker gave example in the development of the United States to show that the large majority of the men who really contributed most to the upbuilding of the nation's greatness came from the northern climates.

Shipping Horses To Russia

Western Horses Bound For Russia Leave Alberta

The first of the 4,000 Canadian horses ordered by the Russian Soviet government has left Alberta. It is announced by J. M. McCallum of the Canadian Department of Agriculture. Arrangements were made for a trainload of 28 cars, carrying 598 horses, to leave Calgary and Medicine Hat. Although some difficulty has been caused in procuring the number of horses required because of the price offered, Mr. McCallum said the first boat load would leave Quebec only a few hours short of the 1,400 previously arranged for.

Good Prospects For Sheep

Prospects for the sheep industry are most hopeful this year with good prices in sight for both lambs and wool, according to W. H. J. Tisdale, assistant manager of the Canada Co-operative Wool Growers' Association, who has just completed a tour of the wool growing districts of Western Canada.

A Modish Separate Blouse and Skirt

Exceedingly smart is the blouse shown here, of unusual design, having tucks at the shoulders, and a square neck. Contrasting material is used for the bands under the scallopes at the left side of the blouse and on the long tight-fitting sleeves, cuffs on the short sleeves, and patch-pocket. The blouse is No. 1589 and is in sizes 34, 36, 38, 40 and 42 inches bust. Size 36 requires 2 1/2 yds. 39-inch or 1 1/2 yds. of 54-inch material; 3/4 yard less 39-inch for short sleeves; 3/4 yard 39-inch contrasting material. Price 20 cents the pattern.

The skirt, having an inverted pleat at each side of the front, and slight gathers at the back, is joined to a dart-tipped under-bodice having a shaped top, or shoulder straps. The skirt is No. 1590 and is in sizes 34, 36, 38, 40 and 42 inches bust. Size 36 requires 1 1/2 yds. 36 or 38-inch material for skirt; 1 1/2 yds. 36-inch material for shaped top, or 1 yard for straight top with shoulder straps. Price 20 cents the pattern.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dressmaker. Price of the book 10 cents the copy.

Haughty Customer: "No; I want something that just sneers."

Poultry Business Profitable

Canada Not Yet Aware Of Importance Of Industry

An honor was paid to Canada by selecting Ottawa as the scene of the World's Poultry Congress. This is only the third congress that has been held, so that the place of the Dominion in poultry matters has early received international recognition.

Canadians are so much accustomed to hear about the value of the wheat produced in the West, the value of our lumber and minerals, and the value of our manufactures, that the importance of the poultry industry is lost sight of.

There are few great poultry farms, but it is the few here and the few there that combine to make up a vast and to those who know how to handle it right a very profitable business. Fifty million dollars is the value of the annual production of eggs alone in this country. Many millions more must be counted for poultry sold for the table.

Canadian eggs stand foremost in quality. They command the highest price for eggs imported by the British market.

That position is only achieved by sound breeding. The result carries its own message for the farmers of this country.

If quality of eggs commands the highest price in the export trade, the same principle applies to bacon, butter, cheese and every other product. In these lines Canada is either falling behind or almost standing still.

There are too many farmers who are content to jog along, doing a little better than just making ends meet. They need stirring up to a realization of their opportunities. They owe it to themselves and to Canada, so that every article that is sought by export buyers will measure up to one standard—the best—and importers will have confidence that if it is Canadian it is good.

Use Tar Sands On the Road

Ninety Carloads Of Tar Sands From Fort McMurray To Be Used At Jasper

Ninety carloads of tar sands will be shipped from McMurray during the present summer, to be used in road-making at Jasper Park. The work of surfacing the roads is being supervised by Dr. S. C. Ellis, of Ottawa, who has spent several years investigating the tar sand deposits and experimenting with the material with a view of developing some practical uses of utilizing the material. A piece of road paved with the tar sands in the City of Edmonton some years ago under the supervision of Dr. Ellis, is in almost as good condition today as it was when first laid down, in spite of heavy traffic.

Hunting For New Double Stars

Through a huge telescope that has been completed after many months of work, astronomers propose a ten-year search about the skies from an observatory in South Africa for the purpose of measuring the known double stars and to hunt for new ones. The lens for the instrument was made in Pittsburgh and cost \$25,000. It will be mounted under an electrically operated fifty-foot dome, costing approximately \$30,000.

Migratory Birds Treaty Between Canada and U. S. Has Been Very Beneficial

Horses Deserve Best Of Care

Is Still Indispensable and Renders Good Service

The horse is a faithful, patient friend of man. He deserves the utmost care and attention. He still plays an important part in the economic life of the nation, and is still indispensable. In short hauls he is cheaper power than the auto. Apart from treating the horse well for his faithfulness, if pays to use him well from the standpoint of service. A well-fed, well-cared-for horse will be in a position to render better service than the horse which is neglected and ill-fed.

Now that the hot weather is in evidence, those using and having the care of horses should give them extra attention. Of course they should be well supplied with food and water, and they need a large quantity in the course of a day.

There are two sources from which the working horse may suffer great annoyance and pain in the collar, the other the bit. Almost every working horse bears scars or a painful sore on the top of his neck, where the collar has galled him. Often he is compelled to wear a "breast collar," and this places him at a disadvantage when hauling a heavy load. A properly fitted collar, well adjusted and padded, will cause no trouble. Be good to your horse. He will be grateful to you and will render you increased service.

Retain Women Employees

No General Removal Of Policy On the Part Of The C.N.R.

"The Canadian National is not as a general principle, substituting men for women in the various clerical positions throughout its system," stated W. A. Kingsland, general manager of western region, Canadian National Railways.

Press reports that women were to be let out of clerical positions all over the system and men substituted, caused consternation in the ranks of women workers for the railway, which situation is now clarified by Mr. Kingsland's statement.

What is being done, Mr. Kingsland stated, was that in certain clerical positions where, due to conditions, it was considered that men were better fitted for the work than women, men are being substituted, but there is no general reversal to the policy which existed before the war, when men were employed, throughout the service, and few, if any, women.

Seek Cooler Motor Car

Experiments at the air research laboratory of the American Society of Heating and Ventilating Engineers in the Pittsburgh bureau of mines may lead to many developments in automobile design, according to F. C. Houghton, director. Among the possibilities are mentioned white roofs and strips of damp burlap or some other device to lower temperature in hot weather.

RUNNING AHEAD OF THE TIMES

To keep abreast of the times is good, but to run ahead of them is better, and that is what the Canadian National Railways are doing in putting on the rails this powerful electric car, the latest invention in railroad transportation equipment. Two of these cars has just come west from Montreal for service on the line between Saskatoon and Edmonton.

They are fashioned after the off-electric car which made the famous run from Montreal to Vancouver in twenty-six hours in the fall of 1926, but they contain many improvements and additions and are equipped with six-cylinder engines. Although many railways in the United States have endeavored to evolve a car which would be economical to operate as

well as able to satisfy the demands of traffic, the Canadian National Railways have been the only system, up to the present, successful in producing a self-propelled unit capable of fulfilling all the requirements. The new cars are 73 feet 9 inches in length and ten feet wide and have commodious baggage, passenger and smoking compartments. They can carry 200 gallons of fuel.

"If spring shooting of migratory game birds had not been abolished throughout North America, in 1918 there would not now be left a sufficient number of birds of certain important species to provide shooting for anybody, either in spring or fall."

This considered opinion of a Canadian game conservationist brings in to high relief the benefits of the Migratory Birds Treaty between Canada and the United States and the Acts which implement it. The complete extinction of the passenger pigeon shows that this is not an overstatement, for while the case of the passenger pigeon presents peculiar features, nevertheless the fact remains that this beautiful and useful bird was exterminated because of lack of protection at the spring nesting time. The passenger pigeon in the 80's of the last century stocked in Canada and the northern United States by millions, yet so rapid was the process of extermination that this bird had completely disappeared nearly thirty years ago.

This and other facts concerning the possible practical extermination of some of our remaining species of migratory game birds—geese, ducks, etc.—have led to the general acceptance by sportsmen of the prohibition of spring shooting as a necessary provision. Under the old piecemeal methods of regulation on the one hand, and the decreased area of breeding grounds and increased efficiency of hunting arms on the other, many species of migratory game birds were, before 1918, dwindling in numbers in a most rapid and alarming manner. Crossing as they did provincial, state, and national boundaries in their semi-annual flights, the birds could not be protected unless the regulations were continent-wide. That was secured by the Treaty and like good sportsmen of the different provinces and states are playing the game. In the United States the shooting of ducks and geese stops on January 31, so that these birds are protected on their northward flight to Canada.

Everyone knows that there is no surer way to exterminate any animal or bird than to pursue and harry it immediately before and during the breeding season. Taking into consideration that every bird arriving in Canada has survived a winter and two migrations, it is probably not over the mark to say, from the standpoint of bird conservation, that each bird killed in spring is the equivalent of four or five killed in the autumn. The abolition of spring shooting, according to reports from all parts of the country, has increased the fall flights, and birds are now nesting in localities where they had not been seen for so long that people had come to believe they had never nested there. The object of course, in these measures is not to reduce human profit and pleasure but to increase it by perpetuating and increasing the numbers of the animals or birds concerned. Spoiling of the country as a whole, Canada has held a good stock of moose and deer, and is rapidly bringing back the buffalo and the elk, and there is every reason to believe that the same happy result will follow the efficient management of North America's wild ducks and geese.

Advice Seemed Good

Certain actor, playing the part of a consumptive hero, practised a realistic conceit. During the first performance he coughed continually. After one terrific episode his old tutor, in the play, had to remark, "My dear friend, what can I do for you?" Whereupon a sympathetic friend from the gallery exclaimed, "If you are his friend, why don't you give him a blooming coughdrop?"

Trying Color Cures

By replacing white walls and red coverlets in hospitals with delicate green, yellow, and mauve ones. It is claimed that patients kept in a better temper, sleep well, and leave the hospital three days sooner than under the old conditions. One individual, afflicted with chronic insomnia, went to sleep within an hour in the restful atmosphere of a room decorated in mauve.

a woman, isn't it?"

CROP CONDITIONS ARE FAVORABLE IN ALL DISTRICTS

Ottawa.—Canada's crops are in good condition. A report, issued by the Dominion Bureau of Statistics based on telegrams giving the condition of crops at the end of July shows that the crop situation in every province is favorable.

The following is the report based on individual provinces.

Manitoba.—July favorable. Abundant moisture. Slight hail damage. Wheat cutting not general until late August. Much late grain. Pastures luxuriant. Heavy hay crop but low natural meadows too wet to cut. Vigorous straw growth. Promise of at least average grain yield if everything proceeds favorably and weather does not develop.

Saskatchewan.—Favorable weather over the province as a whole has resulted in strong growth of all grains. Wheat, although later than last year, is reported in healthy condition with a generally even stand. Aided by the hot weather of the past week, about 70 per cent. is now headed out. Coarse grains are also in good condition with grain coming into head. Slight traces of rust have appeared in the south and eastern parts of the province, being most noticeable along the lines from Verwood east to Weyburn, and from the north to Vankar. Hail caused damage to small areas at scattered points throughout the north and northwest, eastern parts of the province. Severe damage was sustained as a result of a storm originating west of Swift Current, which traveled in a south-easterly direction and caused serious injury in the Vanguard, Kincaid and LaPléche districts. Summer-fallowing about 90 per cent. completed. Pastures are in good condition with a splendid supply of moisture.

Alberta.—Crop conditions on July 31 encouraging. Wheat and barley all in head. Oats 75 per cent. headed. All grains filling well. Rye harvest started. Pastures rank and hay crop being cut. Hail damage in restricted areas. Prospects for good increase in yield over 1926. Crop conditions in southern Alberta encouraging except for danger of frost before late fields ripen.

British Columbia.—All crops ripening fast. Harvesting rye well advanced. Wheat cutting commencing. Will be general in week's time. Cereal yields will be well above average. Potatoes and roots promising. Early estimates of 50 per cent. apple crop still holds good with prospects of a slight increase when harvesting completed.

Official Visit Will Terminate At Calgary

Remainder Of Canadian Trip Is Holiday For Prince.

Ottawa.—The Prince of Wales plans to spend five days on his ranch in the foothills of the Rockies and then to visit Vancouver and Victoria before returning home. It is probable that he will sail for England from Quebec on Sept. 7.

When the Royal train reaches Calgary and the two Royal Princes part company from Premier Baldwin, the official visit of the Prince in effect terminates. The remainder of his stay in Canada is primarily a holiday, although His Royal Highness expects to fill a few engagements.

British Women Making Tour

Large Party Will Make Trip Through Western Canada.

Toronto.—A party of 200 women from the Old Country headed by Mrs. Flora Drummond, of London, England, has arrived in Toronto. They are touring Canada, and intend to journey on through Western Canada and on to the coast.

Mrs. Drummond, who gained fame as the leader of suffragettes, has now turned her attention to a "new movement" called "the Guild of Empire," which is designed to educate the woman in the home to the economic and industrial needs of the Empire. It has a membership of 40,000 at present.

W. N. U. 1929

Poultry Congress Closes

Retiring President Receives Honorary Degree From McGill University.

Quebec.—With speeches expressing international goodwill and with a touching tribute to the retiring president, Edward Brown, of England, the third World's Poultry Congress concluded its business sessions.

Interesting announcements which featured the closing were: Edward Brown, F.I.S., of London, England, president and founder of the World Poultry Congress, will have an honorary degree conferred on him by McGill University, Montreal, at a special convocation.

Their Excellencies, Viscount and Lady Willington will shortly build up a flock of poultry of a breed which Her Excellency particularly fancies, as an outcome of the congress.

Ottawa. Country chicks may be taken to England in 1930, on bloc, to take part in the fourth world's poultry congress to be held in London.

United States poultry men are discussing entering four countries there to carry them and their exhibits to the next world's poultry congress in London.

President Ernest Brown read messages from crowned heads of Europe and other distinguished personages, congratulating the congress upon its outstanding success at Ottawa.

Increase In Tourist Traffic

Canadian Rockies Great Drawing Card Says Railway Official.

Winnipeg.—That tourist travel this season was in excess of previous years, and that visitors were coming to Canada from all parts of the world, was stated here by C. E. Usher, general passenger traffic manager of the Canadian Pacific Railway.

Mr. Usher, who has just completed a tour of inspection of the company's famous summer resorts at Banff and Lake Louise, said that more people were visiting the Canadian Rockies than ever before, and that indications pointed to a steadily increasing traffic from year to year.

Mr. Usher was optimistic with regard to conditions throughout the country and was of the opinion that business on the Pacific coast and on the prairies was such as to give cause for general satisfaction.

Naval Conference Ends

Delegates Agree That No Pact Can Be Reached.

Geneva.—After trombling on the brink of a precipice the tripartite naval conference, at the solemn hour of midnight, crashed to the bottom of the abyss. Its delegates mutually and sorrowfully agreed that no pact could be reached to limit further the armaments of Great Britain, the United States and Japan at this time. This announcement was made after a meeting of the plenipotentiaries to consider the Japanese compromise proposals.

The decision to adjourn the conference was brought about by the inability of both Great Britain and the United States to accept the Japanese compromise as a basis of discussion for settling the cruiser question, which was the crux of the whole conference.

Baldwin Celebrates Sixtieth Birthday

King and Queen Send Greetings To Retiring Premier.

Ottawa.—August 3 was the right Hon. Stanley Baldwin's 60th birthday and hundreds of congratulatory messages poured into Rideau Hall all day. Among them were messages from the King and Queen, expressing to the premier of Great Britain their congratulations on his 60th birthday.

He was presented with a silver salver by members of his staff, tokens of esteem from their Royal Highnesses, the Prince of Wales, and Prince George and their Excellencies, Lord and Lady Willington, and a beautifully gold-mounted cherrywood pipe from Rt. Hon. Mackenzie King.

Financial Aid For Queen Marie.

Paris.—A Havas despatch from Bucharest says that the chamber of deputies has passed a bill which will give more money to Dowager Queen Marie from the state treasury than to little King Michael.

MALCOLM GEDDES LOSES HIS LIFE ON LEFROY GLACIER

Calgary.—Malcolm D. Geddes, of Calgary, veteran member of the Alpine Club of Canada, was pitched 2,000 feet to his death when he attempted to gissaw down the Lefroy glacier, near Lake Louise. This is a deceptive glacier and once Mr. Geddes started he found it was impossible to check his slide. First he was thrown, then his ice pick was torn from his hands and with terrific speed he was carried over the ledge and hurled to the rocks and ice far below.

Mr. Geddes was conducting a private party and a guide had not been taken along. He led his friends to Mount Lefroy peak, a feat that was not difficult for him in the light of his experience in climbing this particular mountain, and it was on the downward journey that the tragedy occurred. The expedition had no connection with the Alpine Club of Canada.

Mr. Geddes was one of Calgary's best known business men. He was editor and vice-president of the *Post* and *Mail* and was president of United Oil, Limited.

Non-Stop Flight Fails

British Aviator On Secret Trip To India Crashes.

London.—The British air ministry announced that an attempt of a Royal Air Force machine to make a non-stop flight to India ended when the plane fell into the Danube River in Austria.

Despatches from Vienna reported that the plane fell at Somersberg near Linz, the crash being believed to be caused by the over heating of the motors.

Flight Lieutenant C. R. Carr and Flying Officer E. G. Dearth, neither of whom, it was stated, was badly hurt, were taken to Ansbach, near Linz.

A Distinguished Visitor

London.—Canada is to have yet another distinguished English visitor in a short time, Lord Hewart of Burgh, lord chief justice of Ireland. He will attend the annual meeting of the Canadian Bar Association in Toronto, which will open on August 24. Lord Hewart has held his present, high office since 1922, when he stepped up from the attorney-generalship after having been attorney-general from 1919.

Promotions Approved

Regina.—Among the promotions and transfers approved by the Civil Service Commission are the following: Arthur Patterson, Prince Albert, from grade 3 clerk to grade 5; George Garrett, forest assistant, grade 2, Grand Coulee; Walter Pottle, to be radio inspector or radio electrician, Regina.

University Students Turn Harvesters

These alert and hungry lads are British University students here for the harvest. They came to Canada aboard the Canadian Pacific steamer *Montrose*, arriving in Quebec and Montreal recently. While awaiting their jobs in the harvest fields of Saskatchewan, they are doing a civil list while in Ontario during the harvest season, by Ontario Government agents. They will return to their respective colleges in England and Wales towards

Scandinavian States Have Outlawed War

Series Of Treaties Envisage Peace For All Time.

Stockholm.—By a series of "unrestricted treaties of conciliation and arbitration" war has already been "outlawed" between Sweden and her Scandinavian neighbors, as well as with a number of other European countries, Prime Minister Carl G. Ekman declared in an interview.

"Of course," said the Premier, "if one of the parties breaks the contract, war may break out just the same, but it will not be legal."

"We have agreed with these countries that all disputes, no matter how serious, are to be arranged peacefully. The methods of procedure differ slightly in each case, but the effect is the same. What we can not settle by direct negotiations or by arbitration will be decided by the International Court of Justice at The Hague."

The states with which Sweden has solemnly pledged itself to rule out war as a means of settling disputes are Denmark, Finland, Norway, Belgium, Poland, Austria and Czechoslovakia. The other Scandinavian states have also made similar terms with each other.

At present, negotiations are pending between Sweden and France for a similar agreement. The actual conference was to have started in June, but, owing to the parliamentary situation in France, it was postponed till next January.

Rockefeller Asked To Cancel Soviet Deals

British Group Want Oil Investment Withdrawn Its Report.

New York.—The New York Herald Tribune says that an appeal to John D. Rockefeller, Jr., active head of the firm Standard Oil empire, to withdraw from any financial deals with the Soviet Government has been made by Sir Henry Deterding, managing director of the Royal Dutch Shell Oil group, of Great Britain. The appeal was made after the Royal Dutch group had been unable to block two large United States' oil companies, members of the Standard Oil group, from entering into oil contracts with the Soviet.

In his letter Sir Henry is understood to have appealed to Mr. Rockefeller's interest in churches and philanthropic work, pointing out that the Soviet had destroyed churches and similar institutions as well as having confiscated property and nationalized all industry.

Held Night Session

Dublin.—The Dail Eireann decided by vote of 51 to 24 to sit all night for the purpose of passing the government's drastic public safety bill. The bill was introduced by President William Cosgrave, after the recent assassination of Vice-President Mr. O'Higgins. Under the bill the death penalty may be imposed for the possession of arms.

DEDICATE ALTAR WHERE LIES BOOK OF REMEMBRANCE

Ottawa.—Within the sanctuary of the Peace Tower the Prince of Wales dedicated the altar where will lie the Book of Remembrance to the 50,000 Canadians who died in the war. There in the memorial chamber, standing on stone from the battlefields of France and Flanders, the Prince had gathered about him men whose names are known in Canada through and through. The Governor-General and Lady Willington stood side by side with Prince George, with the Prime Minister of Great Britain and Mrs. Baldwin. The apostolic delegate stood close by the moderator of the Presbyterian Church, and the President of the Baptist convention.

Princess King in a few words, invited His Royal Highness to dedicate the altar. He spoke of what it meant, how the altar was a gift from the mother country of Great Britain, of how, when the book of remembrance was finally deposited, it would contain the names of sixty thousand Canadian dead.

The Prince advanced, "In the name of the people of Canada," he said, "I set apart the altar of this chamber to receive and hold forever the Book of Remembrance to the glory of those whose names are written therein that they may live for all generations."

He raised the Union Jack and turned it back. And, as he turned it, revealing a book on cloth of red and white and gold, a shaft of sunlight streamed through the windows and words inscribed in the altar were clear and distinct:

"My maps, and scars I carry with me to witness for me that I have fought His battles who will now be my reward. So he passed over and all his names sounded for him on the other side."

As the last words fell from the lips of the Prince, the Last Post echoed through the silence of the tower. Above the flag dipped "in tribute. Fairly, from the book of remembrance, the side could be heard the guard of honor called to the present arms."

War Veterans Secure Land

Returned Men File On Homesteads In Saskatchewan.

Moose Jaw.—All that remains of the once famous W-Bar Ranch, south-west of Coedre, consists of an eight-acre tract, the property of the Shamrock Rural Municipality. The remainder of the ranch pasture was filed on by homesteaders, and only one quarter section of very poor land was secured by the homesteaders, who filed on some 50 quarters. About one-half of the acreage was obtained by war veterans, and every parcel was secured by men of British birth who are actively engaged in farming, operations within nine miles of the land they desired.

Held Justified In Killing

Beeton, Ont.—Alex. Hodges was justified in killing Dan Forsythe when the latter invaded his home near here July 22, the coroner's jury inquiring into the case decided. The verdict read: "The jury sworn in to inquire into the death of an unknown man have arrived at the conclusion, that the said man was none other than Dan Forsythe and that he was killed at the door of Alex. Hodges, who acted in defence of his own life, and we deem him justified."

Report Is Denied

Ottawa.—A report which has appeared in a portion of the press to the effect that Right Hon. Stanley Baldwin has accepted a gift of a motor car made especially for his use during his Canadian visit was emphatically denied by members of the British Premier's staff. There was said to be absolutely no foundation for the report.

Water Was Electrified

Bangor.—Ernest Norwood, foreman and janitor of a factory here, failed to wash his hands in a basin of water, as he was told to do, and he was killed in a hospital. The basin was electrically charged with an electricity, which connected with an electric refrigerator plant.

Here and There

Living births in Canada during
1926 totalled 222,905 the birth-rate
for the nine provinces being 24.4
per thousand of population. Deaths
at all ages numbered 107,318 in the
Dominion, a rate of 11.4 per thou-
sand. Excess of births over deaths
in the year was 124,887. A total
of 66,670 marriages were reported
during the year.

The general cool weather for this
season of the year in British Colum-
bia and the amount of moisture
about has saved a great deal of
timber from destruction by fire. So
far this year there have been only
216 forest fires in the province, as
compared with 570 for the similar
period of last year. The present
condition of the woods are excel-
lent.

As a sign of agricultural progress
in the west and industrial pro-
sperity here, the International Har-
vester Company, Limited, have just
sent two of the latest trailblades
of threshers ever shipped to the
west over C.P.R. lines from the east,
the first train consisting of 45 cars
with 111 threshers and the other of
40 cars containing 103 threshers.

The ratepayers of Victoria have
endorsed a by-law providing for
civil support of a proposal for the
establishment by British interests
of a motion picture producing in-
dustry here, by a vote of 2,137 to
663. The city was thereby author-
ized to guarantee bonds of the con-
cern to the extent of \$200,000 after
\$500,000 had been raised by British
motion picture distributors and ex-
hibitors.

A thriving new industry in South-
ern Alberta, which is making pro-
gress and is full of promise, is that
of the raising of polo ponies. Three
ranches are engaged exclusively in
this industry and ranchers and
farmers are coming increasingly to
engage in it as a side line. About
five carloads or one hundred polo
ponies leave Southern Alberta an-
nually for the United States.

The Development Branch of the
Canadian Pacific Railway in co-
operation with Macdonald Agricul-
tural College is conducting experi-
ments on the farm of Donald Fraser
at Plaster Rock, N.B., to ascertain
whether gypsum, of which there are
large deposits, has special value in
connection with potato culture.
Members of the staff of the college
are supervising field tests on the
farm.

The itinerary of the party of one
hundred British newspaper men
who will arrive at Quebec August
12, provides that during the month
they are in Canada the Britishers
will visit practically every corner
of the Dominion and, besides visit-
ing every city of importance, have
an opportunity of studying at first
hand Canada's natural resources and
investment possibilities. They will
travel across Canada and back on
Canadian Pacific lines.

Ottawa, Ont. — Canada's total
wheat yield for the season 1927 is
forecast at 325,075,000 bushels by
the Dominion Bureau of Statistics.
The estimate for the three Prairie
Provinces is 305,052,000 bushels and
for the rest of Canada 20,023,000.
The total yield of oats is estimated
at 389,758,000 bushels, of which
226,297,000 bushels is assigned to
the Prairie Provinces. Barley is
estimated at 58,830,000 bushels,
of which the Prairie Provinces are
expected to furnish 71,724,000 bushels.
Rye is given at 12,169,000 bushels,
of which 10,664,000 is allowed for
the Prairie Provinces. For flax-
seed, 5,319,300 bushels is estimated,
of which all but 107,000 bushels is
allowed for the Prairie Provinces.

PAINTED FIRES

BY NELLIE L. McCLUNG

COPYRIGHT, CANADA, 1925

CHAPTER V.—Continued

Helmi sang as she did everything else, without the slightest trace of self-consciousness. She stood in the doorway with her hands behind her and to the gray-haired ladies who listened, she seemed like the embodiment of hope and youth and aspirations as she sang in her deep voice.

"Keep on sowing when you've missed your crops,
Keep on faithful when the fiddle stops,
Keep on faithful when the curtain drops,
And you'll get there in the morning!
"Keep on trusting in the cause of right,
Keep on looking to the dawn of light,
Keep on fighting till you've won the fight,
And you'll get there in the morning!"

CHAPTER VI.

Helmi's lessons went on. She could answer the telephone and explain in concise English that "Miss Moore is out," or "Would you please wait one minute," followed by "Thank you very much."

"A civil tongue, Helmi," Miss Moore had told her, "may not take you as far as a pretty face, but it will take you along a safer road."

Helmi lived for the days she had her lesson in the atmosphere of

CARRIED WIFE TO BED

Suffered So She Could Not Walk. Restored to Health by Lydia E. Pinkham's Vegetable Compound

Mining, Ontario.—"I am a practical nurse and I recommend Lydia E. Pinkham's Vegetable Compound to suffering women. For three months I was almost helpless and could not sit at the table long enough to drink a cup of tea. Many a time my head carried me to bed, I would be so weak. Then he read in the paper of a woman suffering as I did, and got better after taking the Vegetable Compound, so he went and got it for me. When I had taken three bottles I was just like a new woman and have had splendid health ever since. When I feel any breaking-down, Mrs. BOWSER, R. R. 1, Mining, Ontario. Do you feel broken-down, nervous, and weak sometimes? Do you have this horrid feeling of fear which sometimes comes to women when they are not well? Lydia E. Pinkham's Vegetable Compound is excellent to take at such a time. It always helps, and if taken regularly and persistently will relieve this condition."

W. N. U. 1493

After that her teacher could not keep enough words ahead of her. Helmi kept a list of words pinned over the sink, while she washed dishes, and in between her moments of dish-washing she practised her sentences: "This lady is beautiful."

She has an elegant coat.

Will you go for a drive?

Have a chocolate?

I adore chocolates.

Miss Moore, who tried to help on the good work of Canadianizing this young person who had come to our shores, wrote on her sheet:—

"Honesty is the best policy."

"Civility costs nothing."

"Evil communications corrupt good manners."

And these Helmi faithfully copied, but they left her cold. Indeed, she told herself in good Canadian that Miss Moore's sentences were dumbbells!

Further attendance at the pictures brought home another fundamental truth—the lovely lady is always forgiven—indeed, she can do no wrong. She may appear to do wrong, but someone else is really to blame. She found this to be true with the Doctor and his wife. The Doctor loved her even when she scolded him, pleaded with her when she pointed, laughed at her extravagance though pretending to be horrified, bore with all her moods and rages. Helmi knew it was because she was so beautiful. Every one said the Doctor's wife was such a lovely lady.

No wonder Helmi now decided against stenography. She would be a lovely lady! And the words and sentences which appeared on the wall were dictated with this in mind. Helmi was struggling with the lesson on the beaver, in the Third Reader. "He is an amphibious animal," she read, "living both on the land and in the water." She looked inquiringly at her teacher, whom she knew, without looking up, was regarding her intently.

"Fahaw, Helmi, a girl with eyes like yours doesn't need to know about amphibious animals. Close the book—that will do for today. I want to talk with you. Life is full of surprises. We have to take what thrills we can. I get a thrill out of you some way. You are so young and promising. Now I am going to have a party. The Doctor is going East in a week. I have my party when he is gone, because my parties and my friends bore him to tears. So we set the dates to suit. And besides his mother is coming to visit us soon, and I want something new. You're the newest thing I know, and so I want you at my party."

"I have no clothes," began Helmi, "for style party."

"Listen, Helmi, I have the clothes, cloths, full, and I know just how to dress you. You won't need to talk, so don't worry over your English. You'll be seeing Finnish lady visiting Canada, the Prime Minister's niece, and my friends in Montreal asked me to look after you. Your father is a shipping broker, and you are on your way to Vancouver to join him. Won't you feel them, and when they are all raving about you, and wanting to dance with you, in your delightful broken English you will beg them to excuse you—you are so tired. You will stop upstairs; change back into your maid's dress, and come down and help Maud to serve. Now, come and let me try on your clothes. You are going to be a symphony in green, Helmi—there's no color so dazzling as green. Mauve dresses, red raves, but green glows. You're to be a singing soldier!"

Helmi's eyes were dancing at the thought of such a thrilling adventure, and when in the region of enchantment upstairs in Mrs. St. John's room, the walls of which were of pale green brocade and satin, the hanging green and the rug so plushy green that they reminded her of the loveliest moss she had ever seen, she found herself looking into the glass at a beautiful girl in a creamy green clinging dress, silver slippers, jade earrings and necklaces, a marvelous cloak shade deeper than the dress, and lined with flame-colored satin that glimmered and shone. It was all just like a fairy story.

(To Be Continued)

Minard's Liniment for scaly scalp.

"Fyther," said little Mickey, "want it Patrick Henry that said 'let us have peace'." "Niver," said Mickey. "Nobody by the name of Patrick Iver said anything like that."

Enlightened Red Men

Old Time Indian Chiefs, Who Were Loyal To the Government

Western newspapers are liberal in their praise of a Chief, Thunderchild, who died on his reserve near Saskatchewan a few days ago. He is said to have been the last of the old-time Chiefs, and the last signed one of the half-dozen treaties in the seventies by which the red man surrendered his prairie domains to the advancing whites.

Thunderchild illustrated how fortunate Canada has been in its relations with the aborigines. He was one of the Chiefs who refused to join the Rebellion of 1885, and remained loyal to the Government with which he had made a covenant a few years earlier. The organization of the Northwest Mounted Police in 1874 was a wise move by the Canadian Government, and the Indians soon learned the value of the force as a protecting agency for them.

Crowfoot, the wise Chief of the Blackfoot tribe, out near the foothills, expressed well the view of the enlightened Indian when he signed the Blackfoot Treaty in 1877. "If the police had not come to the country, where would we all be now?" he said. "Bad men and whiskey were killing us so fast that very few indeed of us would have been left today. The police have protected us as the feathers of a bird protect it from the frosts of winter."

Crowfoot, too, refused to join in the rebellion, and he welcomed the railway as the natural instrument of the white race which in the Canadian West had befriended the natives who had to give way to new conditions.—Toronto Globe.

Gold Reserve Well Protected

Underground Vaults in Bank of England Are Burglar Proof

Although workmen engaged on the new underground vaults of the Bank of England, where all of Great Britain's gold reserve will rest, are guarded from prying eyes by armed policemen, some details have leaked out regarding what is said to be the world's hardest job of safe cracking. Underneath the present bank are concrete vaults deep and seven feet eight inches thick. If somebody with felonious intentions were to tunnel through these, he would come to a passage patrolled by guards and protected by every known alarm system around all four sides of the structure.

Once in this passage way the crackman would have to cut through double grills of steel. The next step approaching the swag of several hundreds of millions of dollars in gold would be to cut through doors of solid steel weighing 24 tons each. This would take oxy-acetylene drills, in the hands of experts at least three days. These doors can be swung with light pressure of one hand, if they are open. When they are locked it is different.

Miller's Worm Powders are a prompt relief from the attacks of worms. They are powerful in their action and, while leaving nothing to be desired as a worm expellant, have no purgative effect. Upon the youthful system, remedying fever, biliousness, loss of appetite, sleeplessness, and other ailments that follow disorders caused by worms in the stomach and bowels.

Something To Be Proud Of

Britain Holds Envious Place in Long Distance Flying

The British record in long-distance flying is something to be proud of. We have to our credit the first conquest of the Atlantic both by airship and aeroplane, the long array of Empire flights by Sir Alan Cobham and the magnificent non-stop attempt to India which synchronized with Colonel Lindbergh's Atlantic crossing. Yet to a great extent, because we are without the flair for self-advertisement which is a conspicuous possession of some other nation, Britain's reputation abroad is tending to become that of an indifferent performer in the air. It is a pity, because our airmen are talking and writing as if we had fallen into a position of hopeless inferiority.

Husband: Well, thank the Lord, the car is finally paid for.

Wife: Don't it splendid! Now, we can turn it in on a new one.

Minard's Liniment for cuts and bruises.

Little Helps For This Week

Walk worth of the Lord unto all pleasing; be fruitful in every good work.—Col. 1: 10.

True worth is in being, not seeming. In doing each day that goes by, some little good, not in dreaming. Of great things to do by and by, let us have no dreaming.

Not what we think, but what we do. Makes saints of us.—Ibid.

NO MEDICINE LIKE BABY'S OWN TABLETS

For Either the Newborn Babe Or the Growing Child

There is no other medicine to equal Baby's Own Tablets for little ones—whether it be for the newborn babe or the growing child. The Tablets always do good. They are absolutely free from anything that could harm the baby and the mother can always feel safe in using them.

"Consider the Tablets," Mrs. John Armour, R.R. 1, South Monaghan, Ont., says:—"We have three fine healthy children, to whom, when a medicine is needed, we have given only Baby's Own Tablets. The Tablets are the best medicine you can keep in any home where there are young children."

Baby's Own Tablets are a mild but thorough laxative which regulate the stomach and bowels; banish constipation and indigestion; break up colic and slugs; relieve fever, and make feeding easy. They are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Airplanes Outdo the Birds

Able To Make Much Longer Non-Stop Flights

Factory-made wings have eclipsed the feathered species. Lindbergh's non-stop flight was 3,610 miles. The distance flown by Chamberlin and Lytle is estimated from 3,000 to 4,400 miles. The longest non-stop flights of birds have been those of Alaskan plovers, from the Aleutian Islands to Hawaii, a distance of 2,400 miles, and the annual migrations of golden plovers from Newfoundland and Nova Scotia to the Llewellyn Islands and the northeastern coast of South America, a distance of 1,700 to 2,200 miles.

It takes a good artist or a good actor to draw a good picture.

Diarrhoea Summer Complaint HE ALWAYS USES

Mr. T. F. McGregor, Melancton, Alta., writes:—"Over forty years ago my mother used to give me Dr. Fowler's Wild Cherry Laxative for diarrhoea and summer complaint. All through the years since then when troubled with an excessive looseness of the bowels I have been accustomed to take a few doses of the same old, reliable remedy and it always seems to lay the disorder to rest, no matter what the cause."

Don't Accept a Substitute. This reliable preparation has been on the market for the past 50 years; put up only by The T. M. L. Co., Limited, Toronto, Ont.

Then and Now

In 1920
Chevrolet 2-door
Sedan Cost
\$1795.00

COMPARE the Chevrolet of seven years ago with the Chevrolet of today and realize how radically Chevrolet has revised all conceptions of motor car value.

In 1920, the Chevrolet illustrated here represented the highest standards of quality and value . . . at a price of \$1795 (f.o.b. Oshawa) . . . over a thousand dollars more than you pay today for a Chevrolet that possesses style, luxury and refinement unthought-of in any car a few years ago.

In following its fundamental policy of constant improvement, Chevrolet has built up a production volume which places it first among all cars in the world. And Chevrolet has shared the savings of volume purchasing and production with the public by reducing the prices of Chevrolet cars.

So, today, you get a Chevrolet with amazing QUALITY in its every detail at a fraction of the cost of a similar model Chevrolet of seven years ago.

Mr Jos Kulak has sold the Sw 23, Tp. 53, Rg. 1w5 mer., to Mr Robert Arndt, of Peace River. The price paid is said to have been \$8000.

For catching fish on the restricted waters of Cottage Lake on the morning of July 31st, Mr Jack Taylor of Edmonton was fined at a sitting of the local Court on Saturday. Mr R Todd, district inspector of fisheries for Alberta, prosecuted the case. Mr John A Barrie, of Edmonton Beach, has been appointed a Provincial fish guardian for the district.

A Mission Festival will be held Sunday, Aug 21, at Immanuel Lutheran church, Rosenthal. There will be special services.

Spruce Grove News

The Grove's senior ball team made the trip to Duffield on Sunday and put up a good game against the local team. They looked like the winners right up to the tail end of the game, when Duffield, in a lucky streak, scored two runs, giving them the game.

There was a collision, Sunday afternoon, between two autos at the school corner. The car going east, owned by a local man, had its starboard fender pretty badly damaged.

The teachers and pupils of the Sunday school in connection with St Matthew's Lutheran church (Waninola Synod) will hold their annual picnic on Sunday, afternoon next, at the farm of Mr Emil Ziegler, near St John schoolhouse.

Several local gentlemen are inquiring as to the probable date of the Fair at Stony Plain this year.

An unadvertised competition took place one morning last week between a team belonging to a local farmer who was in the Grove shipping cream, and one of Henry Thornton's locomotives. The team headed East, but the driver slipped overboard as the outfit passed Javorovsky's farm. On this, the equines increased their speed and beat the locomotive to Beuerlein's crossing, and disappeared for several hours. When found, the team still had the front wheels and part of the Ray rack.

Lawn Tennis Tournament.

Wabamun lawn tennis players to the number of seven invaded Stony Plain last week and made a good impression. The plays and scores are as follows:

Mixed Doubles—Mr & Mrs Edwards (Wabamun) vs Mr & Mrs Yeats. Wabamun team won both sets, 6-2, 6-4.

Women's Doubles—Mrs Yeats and Miss Ruth Wright lost to the Wabamun team 6-3.

Men's Doubles—G Clarke and L Oatway vs Mr Foster and partner (Wabamun). Won by visiting team, 6-4.

Men's Singles—Fraser (Wabamun) won over Roy Olson, 7-5. Men's Doubles—Dr Oatway and R Alton lost to Mr Fraser and A Nothor, 6-4.

Dr Oatway & S C Elliot played winners of last set, and lost, 6-8. Lorne Oatway & G Clarke played same team, and Wabamun won 6-1.

Foster & Edwards (Wabamun) defeated F W Yeats and Lorne Oatway, 6-4.

The Great Nelson at Stony.

There will be several vaudeville acts at Wudel's Hall on Saturday Aug. 13. The Great Nelson Vaudeville Troupe have a splendid reputation from large cities as giving a high-class vaude

GEO. TAMMINEN

ville show. Mr Nelson has been with Ringling Bros. & Barnum's Combined Shows, Sells - Floto, Sparks and others. Don't miss seeing the Nelson Bros in vaudeville at Wudel's Hall. Dance after the show. Prices: 50c and 25c, including chance and show. The same show will be at Holborn Friday Aug 12, and prices will be the same.

Ball Tournament at Duffield.

The ball tournament at Duffield on Sunday last was a success, there being a good attendance of fans, and all the contests were run off smoothly.

First game, Duffield v. Spruce Grove, was won by the former, 4 to 3. Grove team lead right up to near the finish, when Duffield put on a spurt, netted two runs and won. Batteries—Duffield, Holburn, Brass & Grover; John Miller & Culp. C Fuhr & J Clement umpire. There was considerable kicking on the decision!

Second game, Walther League v Evansburg, proved easy pickings for the Leaguers, who won by the score of 18 to 1, with 4 home runs to their credit. W L team, Philip Enders p. Hy Trivett; L Omer, J C Omer, A Miller, C Lory, Carl Enders, Joe Uimer, Hy L Enders, Dave Bell, umpire.

The third and final contest was between Walther League and Duffield, and proved the best game of the day. W League won by a score of 6 runs to 2.

Duffield Doings

Stewart Faulks, Edmonton, spent the week end with his parents, Mr and Mrs Reginald Faulks.

The postoffice has been moved over to new premises north of the railway tracks.

The new grade on the road north of town is greatly appreciated by motorists using the same.

Edmonton Parking Regula's.

Autoists visiting the City will note that there has been a change made in parking regulations there. Parking for over 20 minutes is forbidden on certain parts of Jasper avenue. On streetion which there are street car tracks, autos must be parked parallel with the curb; and on streets which have no tracks, autos must be parked at an angle of 90 degrees.

Parking on Jasper east, at the narrow bend, is forbidden. These regulations are in force now.

WHITE ELEPHANT COMING WITH CIRCUS

Sacred Animal Making Only American Tour with Ringling Bros. and Barnum & Bailey Shows.

Hailed as "the greatest feature of all time," Pawah, the world-famed sacred white elephant of Burma, is to be presented in the menagerie of the Ringling Bros. and Barnum & Bailey Combined Shows when the big circus exhibits at Edmonton on Monday, August 15.

Pawah is the first of his kind to be found in more than 300 years and the only genuine sacred white elephant ever brought to America. He is accompanied by his supreme keeper, Dr S D Po Min, and a retinue of 14 native Burmese. The present is Pawah's only season in America, the Ringling Brothers being under bond to return him to Burma at the end of the tour.

Pawah is of those rare elephants that the Buddhists of today and centuries past have worshipped in the belief that in their huge bulk resides the soul of Buddha. And certainly he is as different from those elephants with which the public is familiar as day is from night. His eyes are milk white, set with sparkling pupils. His skin is soft and pliable. His body is white as a "white man" is white. To quote the French author, M Dussard, he is "gentle as a kitten and as beautiful as a Greek statue."

This rarest of beasts was found 8 years ago in the jungles of Burma, midway between Mandalay and Hangoon. Last summer he was brought to England under the protection of the British Government and in the face of threats from the Buddhist priests who predicted that his departure from Burma would bring dire calamities. More than two million people saw Pawah when he was presented under the auspices of the London Zoological Society. The bringing of this white elephant to America is in furtherance of the Ringling policy of constant enlargement. The arena portion of this season's circus introduces five rings in place of the usual three. The Big Show's personnel numbers more than 1000 people, and 900 horses; 100 double-length railway cars are required to transport its ten thousand marvels, plus special Pullman for Pawah and his attendants.

Mike Says:

Some barfaced lads are old and to have whiskers.

This would be a good town if there weren't so many fellows walking around who won't pay their grocery bills.
